1. Oil stress is feeding rates, while equities are looking through it

2026-05-17 | JPM The J P Morgan View Higher for Longer in Oil and Rates Own AI | page 3 source PDF

What it says: JPM The J P Morgan View Higher for Longer in Oil and Rates Own AI: Figure 1: Stick to our momentum view of “buying the winners” with AI upstream theme being the key pillar of our bullish outlook in risk assets Normalized YTD performance for Nasdaq, S&P 500, S&P 500 equally weighted, Eurostoxx indices; % 0.85 0.90 0.95 1.00...

Worldview update: The cleaner market signal is the cross-asset divergence: oil stress has mattered for rates, but equities are already looking through it. That calm is fragile if energy pressure starts feeding inflation or growth expectations again.

Portfolio/use: Track Brent, rates, and equity correlation together; use oil/rates stress as the warning light rather than treating headlines in isolation.
